

Let me begin with, I have 31 classes with over 600 students and am loving every minute of teaching Spanish thus far. We use the curriculum for three schools and although each grade level is a bit different, each loves it. The upper grades are thriving, ask questions, and attempt to build sentences with the vocabulary already introduced. It's absolutely amazing! I love teaching your curriculum and want you to know that it is working extremely well for both the students and myself. Thank you for the opportunity to use this amazing program!"

Mara McKnight, Family Resource Ministries, California

Thank you so much for offering this program. I can't believe how much my son has learned. He knows enough that we can have mini-conversations at mealtimes with little translation. What a rewarding and fun way to teach a skill that is becoming increasingly important to making connections in our world. San Diego Parent

My second graders are blessed with a fun and exciting Spanish curriculum to learn from! They cannot wait to come to class and I am excited to teach the children. I can't tell you how excited the parents are. You've created a beautiful way of learning - I love the variety of activities that will cater to different learning styles! Thank you. ABOUT JULIA BURNIER

I am an American who grew up in the

rich, vivacious environment of Mexico City. I learned to love the songs of Mexico and the beauty of a language that is spoken well. My first career was as an Organic Chemist. I spent 14 years as a research chemist. In 1997, I switched gears to pursue an alternate passion: the teaching of Spanish to young students while they are at their linguistic best. I believe my unusual background was instrumental in developing *Sing 'n Speak Spanish*®, a program unlike any other.

Speaking a foreign language is a critical skill in our multicultural world, and learning it is so much fun if taught well. I want Spanish teachers to focus on excellent teaching instead of laborious lesson preparation. I'm delighted to present to you a highly interactive far-reaching program that is playful but that has high educational goals. Every theme has a song to aid in the long-term retention of vocabulary and grammar. Interactive puppetry delights the younger students. Every lesson is unique with a variety of activities to make each and every session enjoyable.

SCOPE & SEQUENCE CHART

The *Sing 'n Speak Spanish*® curricula is extensive. It consists of eight years of instruction for grades K – 8 or any subset of these grades. The chart below illustrates how to incorporate this Spanish program into your school. Follow the chart from a cell in the first row diagonally to the bottom right to see how a child progresses from year to year. As an example, the chart highlights the sequence for a Kindergartener all the way through 8th grade.

NOTE: Year 1 Spanish is labeled as Year 1A, 1B, and 1C in the Scope & Sequence Chart. Year 1A and 1B courses are taught with the Year 1 (K-5) curriculum, but we teach Year 1B with higher level songs, activities, and a more advanced workbook. The lesson plans suggest ways to lower or elevate the level of instruction to match the students' abilities. The Year 1C course is taught with the Year 1 (6-8) curriculum which has a parallel but separate set of lessons and a workbook that are age appropriate and include about 25% more vocabulary.

The *Sing 'n Speak Spanish*® curricula is versatile. You can teach the class once a week at a fast pace, pick and choose from the activities, and complete the course in a school year. You can also stretch the program by doing more of the activities, doing the workbook in class, adding assessment, and adding cultural themes of your own. Years 6 & 7 are based on a series of humorous skits (see a description under *Support Materials*).

GAMES

Translation Sensation® is a language drilling game for English or Spanish learners where students laugh and learn as they make silly sentences. It is easy to learn, challenging, and fun. This is a great way for students to learn new vocabulary and structures and to reinforce the vocabulary and structures they have already learned. The students will need some previous exposure to the target language to play the game. Two to four players (or teams) can play the game. There are three levels of play corresponding to the vocabulary and structures taught in Years 1, 2, and 3 of the *Sing 'n Speak Spanish* program. Each game contains 180 or more double-sided playing cards.

Sample play:

The games are appropriate for beginning to advanced language learners ages 7 to adult. The object of the game is to obtain the highest score by correctly translating words or phrases from Spanish to English or English to Spanish to form complete and often humorous sentences.
